He generally comes down in the omnibus at an early hour of the day and remains closely absorbed in bustness until five o'clock. He rarely takes exercise, and finds his pleasure in the closest attention to his business. A friend of mine rode to Washington with him in the same car from New York. He neither spoke nor got out of his seat, and hardly moved, from Jersey City to Washington. He usually leaves his office at five o'clock and walks slowly np Broadway to Lafayette Place. He is over six feet high, heavy built, with a decided German look, small hazel eyes, as if he were half asleep, head round as a pumpkin and about as destitute of hair. He is exceedingly bospitable, and in the "seasou" gives a dinner to his friends weekly, at which the richest viands on services of gold and silver are presented by liveried servants to his guests.

HOW SUGAR IS MADE WHITE .-The way in which sngar is made perfectly white, it is said was found but in a curious way. A Silver Bow City & German Gulch. hen that had gone through a clay muddy feet into a sugar-house. She left her track on a piece of sugar. It was observed by some one that wherever the tracks were the sugar was whitened. This led to some experiments. The result was that wet clay came to be used in refining sugar. It is used in this way : The sugar is put into earthen jars, shaped as you see the sugar-loaves are. The, large ends are upwards. The smaller ends have a hole in them. The jar is filled with sugar, the clay put over the top and kept wet. The moisture goes down through the sugar, and drops from the hole in the small end of the jar. This makes the sugar perfectly white.

bont "drunkennem" and "drawing deadly weapons." It is intended as a si on the Provost soldiers, whose blue coals and earbines throng the streets too thickly for their dend set enemies - Brigham's minions such as ye editor aforesaid. He doubtless thinks it a great "imposi-"invest the city," and, hence, has to get up some bug-bear hobby now and then to bary on. The pith of his labored article is just the, and nothing more: that two soldiers were passing along the sidewatt a few nights ago, and one of 'em was intoxicated with Brigham's Valley-Tan, so much so that he mistook a man be met for some acquaintance and facetiously told him 'halt!" A few words ensued, and, seeing the circumstance, his comrade shut him up and took him on to quarters. Whisky is whisky, and will, of course, cause citizens as well as those men "wearing the uniform of soldiers," to say and do a deuced sight which, when sober, they wouldn't think of. One or two "tired" soldiers, now and then, are no rarae aves in a city of this size, no more than tipsey transient men er citizens. Then, why chronicle those sulitary cases any more conspicuously than the latter. We know of one or two well-known citizens, among the Saints, who occasiona'ly get obstreperous without bounds, and yell and "holler" like a Cheyenne callione in street and ba: - : oom, yet their cuttings up are never chronicled in the Telegraph. Nobody can be personally blamed for these "resurrences," any more than others could be blamed for those straggling citizens that thraw stones at folks last season. It is a case of individual offence, not warranted or wished for.

and the same and the same

But, to come to the bettom of the thing, who is to blame for drunken frolics bere! Is it not the "honorable City Council" itself, only and alone? They keep open a City bar-room and the liquor store in town-and what for? To make money out of the selfish speculation. And this, their monopoly, makes the most, the more Valley Tan is sold; consequently, the more drank, the more drunkenpess, among soldiers as well as eitisens! The Telegraph says:

Moreover, we have never heard of drunken soldiers, but the annoyance is of Congress is quite likely to be so radidemanding attention to it, and unless those who have the power take steps and which with the right action on the to prevent its recurrence, the city will part of the Government might, we bemost certainly initiate measures for their lieve, be avoided.

That's just the way to do it; let the City council abut up its own whisky shop and stop this thing of drunkenness teetotally! Those are the "measures" to be initiated. As it is, there is but one place in town where liquor is licensed to be Brigham Young or the City-same thing -no other being "tolerated". And this is the same Young who said, in one of his sermons to the Saints, some time tion from congress. They will probabsince, that "the man who sells liquor and thinks he won't go to hell, FO ILS HIMSELF!" Reader, you see the "situation" of the case, so we won't tire you further with this case in point.

The Public Sentiment of the Na-

Never was there the time, since the settlement of the West, when that sovereign element, Public Opinion, was so strong and culminating against this stain upon our nation's progress, Polygamy, as it appears to be just at the present time. The States, east and west and everywhere, are aroused, indignant and indeed abased, at the state of things in Utah, as reported to them, truly, by those who had visited here last season, The American people's attention to this subject has been righteously awakened. and an impending crisis must be met by the present Congress, one way or the other. The people, through the Press, demand it even now; and woe be unto those that will not work to magnify the law and make it bonorable!

As an indication of the universal feel-

ing for this object in the east, we will quote some extracts from the editorial in the Springfield, Mass., Republican, of Nov. 18th, as it will show what is being reform shows increasing agitation.

New York, Dec. 8. reechoed by every other influential organ the whole country over:

Utah newspapers, and conversations day.
with recent overland travelers, we have interesting intelligence from the "Latter Day Saints" in Utab. Mr. Richardson at Mc.

at Washington for so long.

While the Mormons beast of one thou-sand new English convents to their doc-trines and church as being on their way to the territory, the opposing elements are thus creeping in with greater moral rapidity and power. Discussion is in; opposition churches and newspapers are there and active: intelligent visiters are fast increasing; trade with adjoining teritories grows rapidly. Gentlie me chants are as prosperous as the Mormens. and their number is increasing; shorter roads are building to east and west and north; and all the elements and powers of democratic civilization are coming into more active, life thera. The consequence of course will be, as Mr. Bowles pointed out in his letters, that polygamy first and the Mormon church afterwards will weaken and rot and die. There is no help for it. The result is just as certain as that two and two make four.

But the government at Washington seems still blind or indifferent to the condition of things in Utah. This very antagonism now springing into activity there needs to be watched over by the strong arm of the Government.

There are too few military there to indicate the purpose of the Government to sustain this minority in their rights of free speech, free religion and free press Connor had proposed to gather a force of 5000 in the territory, and provision had been made for them. This is not too few in view of the delicate con-dition of affairs; a treasonable, fanatical, law delying majority.

We would be satisfied with that policy which Mr. Bowles's letters suggested; the presence of such troops, under such prudent yet firm command, as would keep the peace between all parties, ensure freedom of discussion, and give every legitimate opportunity to all the numberless agencies which are at work to settle, and which with such protection, will settle peacefully the disagree-ble issues that fanaticism and last have forced into being on that arens. This and the putting of all the federal officers of the territory into the bands of antipolygamists would be enough for one season. These steps, secured, enforced, would lead on to others; though alone, we believe they would open the way reform. Now the post office and the revenue departments of federal service in the territory are in the hands of leading polygamis's, Brigham Young's servants and tools. It is a shame that it is so; and if the executive at Washington permits it to continue, Congress will not and should not hesitate to inserfere. And under an aroused public feeling at the indifference and neglect of this whole these insults being offered by any but subject by the executive, the interference of such a nature that we feel justified in | cal and rough as to precipitate the very conflict of arms that we would avoid,

In the United States, there are fiftyten different kinds of Baptiets, nine Methodist, thirteen of Presbyterians, and two Quakers. The Baptists number 1,721,373 members of communicants, and the Methodists 1,651,732. The number professing the Roman Catholic religion is 3.177.140. The Baptista are divided into the following curious sects, viz : regular, anti-mission, seventh-day, the principle free-will, river-brethren. winnebrennarians, dunkers, mennonites and campbellite. The Quakers are di vided into Orthodox and Hicksite.

THE largest of New York editors, in point of size, is James Gordon Bennett, while the smallest is Henry J. Raymond. Both of these men have been bold suitors and yet, quite strangely, the latter has never met the touch of personal violence, while the former has been punished often and severely. Mr. Raymond exhibits a marvelous contrast between muscle and intellest .. His industry for a quarter of a century past, has been incredible, and he has the reputation of being the hardest worker in New York. In this way he has built up the Times.
